BEYOND TOOLS REPAIR + SERVICING TERMS & CONDITIONS

TOOL DROP OFF: Service Inspection Quote Fee is \$49 for tools under 4kg and \$69 for tools over 4kg. The fee is payable when you drop your tools for repair, it is non-refundable, and it is deducted from the approved quote + final invoice.

TOOL INSPECTION: Our technicians inspect the tool; assess the work required; source the spare parts and prepare the quote. Please allow seven working days. Full payment is required to authorise/commence your repair. Repairs under \$110 will proceed with a repair without quoting / advising. All quotes exceeding \$110 will require your authorisation approval to proceed with the repair (should you NOT WISH to continue with the service, the unit will not be re-assembled (it will be provided in a bag of bits). At your request, we can re-assemble the tool at an additional cost of \$25 / \$40.

WARRANTY TOOL DROP OFF: A proof of purchase is required, as before our service department can look at your tools, you must provide Beyond Tools with proof of purchase receipt for warranty purposes. While we make every effort to record your Beyond Tools purchases, Beyond Tools is not responsible for keeping and supplying warranty purchase receipts.

TOOL COLLECTION: We will contact you once your tool is ready for collection either by phone, SMS or email. All service charges incur a \$5 sundries charge. Any tool/equipment not collected within 90 days of invoice will be disposed of or sold to recoup costs without further notice.

CONTACT US: Please email service@beyondtools.com referencing this invoice number, tool info (brand, model, type), ie. Makita LS1216 Mitre Saw. This enables us to track your tool and get back to you more efficiently.

FAQ

Why is my tool not re-assembled if I don't go ahead with the quote? To keep our quote inspection fee to a minimum, we do not re-assemble your tool.

Why is my +4kg tool charged more? Our technicians need more time to assess tools the larger they are
